- **Improves texture and condition, helps maintain hair's elasticity**

KERATIN

one 'n only®
**Brazilian
TECH™**

One 'n Only® has developed a professional hair care line containing keratin that helps protect hair against structural damage; strengthens and repairs; enhances shine, smoothness and moisture; and improves texture and condition. This prescriptive hair care line is designed for various hair types, textures and conditions.

Natural keratin bonds to the hair's surface penetrating the cuticle into the cortex. The Brazilian Tech Keratin system helps replenish the hair's natural keratin, which may be lost or damaged during the chemical/color process. Recommended for use after any chemical service, or for those who are exposed to the daily damage of heat-styling appliances, to keep hair smooth, shiny and nourished.

BTS8S • Brazilian Tech™ Keratin Shampoo 8.5 oz.

- High-performance strengthening and gentle cleansing shampoo
- Natural keratin helps protect hair from structural damage, strengthens and revitalizes damaged, stressed hair
- Revitalizes, renews and restores elasticity to weak, dull hair
- Helps protect hair against heat during thermal styling
- Formulated for chemically or color treated hair
- Recommended for use following chemical/color treatments
- For daily use
